PROFESSIONAL SUMMARY

Results-driven technology leader and full-stack engineer with 3+ years of experience spanning fintech, education, and technology startups. Expert at building and scaling secure, high-performance web applications and leading teams to deliver innovation at speed. Skilled in bridging technical vision with business execution to achieve measurable impact and transformation.

CORE COMPETENCIES

Leadership • Product Strategy • Full-Stack Development • Fintech Systems • Cloud Infrastructure • Scalable Architecture • Agile Methodologies • Innovation & Growth Strategy

EXPERIENCE

Chief Operations Officer (COO) — Kochure Technologies | 2023 – 2025

- Oversaw business operations and technical strategy, ensuring synergy between innovation and delivery.
- Directed cross-functional teams across engineering, product, and business development.
- Drove digital transformation initiatives, resulting in improved efficiency and client success metrics.
- Established innovation pipelines and agile frameworks that enhanced execution speed by 30%.

Senior Software Developer — Hometown Fintech | 2023 – 2025

- Engineered scalable fintech systems handling thousands of daily secure transactions.
- Optimized backend and frontend performance, improving reliability and load handling by 40%.
- Collaborated with UI/UX teams to deliver seamless user experiences and regulatory compliance.
- Designed robust APIs and implemented microservice architecture for scalability.

Website Developer — Kwaratech Academy | 2021 – 2022

- Developed responsive, accessible, and SEO-optimized e-learning platforms.
- Integrated modern CMS and analytics for content tracking and student engagement.
- Enhanced performance by modernizing front-end frameworks and improving accessibility.

PROJECTS

FinEdge — Fintech Platform

A secure digital payment solution built with Node.js, React, and PostgreSQL, enabling seamless wallet operations and real-time analytics for transaction monitoring.

KwaraLearn — Education Management Platform

An interactive e-learning platform designed for Kwaratech Academy, supporting content management, student progress tracking, and mobile accessibility.

TechLink — Startup Collaboration Hub

Built a scalable SaaS product connecting innovators, startups, and developers to collaborate on digital transformation projects using Next.js and Firebase.

EDUCATION

Bachelor of Science (In View) — Computer Science

University of Ilorin | 2022 – 2026

CERTIFICATIONS

- Application Development — 2023
- Backend Website Development — 2022
- Frontend Website Development — 2020 – 2023

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frameworks: React.js, Node.js, Express.js, Next.js

Tools & Platforms: AWS, Git, Docker, Firebase, Postman

Databases: PostgreSQL, MongoDB, MySQL

Concepts: DevOps, Microservices, CI/CD, API Design, Cloud Architecture

LEADERSHIP & INNOVATION HIGHLIGHTS

- Led technical innovation programs and hackathons at Kochure Technologies.
- Mentored developers, introducing efficient version control and agile pipelines.
- Delivered fintech and edtech systems with near-zero downtime and scalable architectures.
- Advocated digital transformation through automation and cloud integration.
